SUPPORT
LINC

IN Health Plans, is a company of health care specialists with over 100 years' experience. They have created affordable, comprehensive, healthcare memberships for your workforce and their families.

IN Health Plans is NOT Health Insurance.

These innovative and affordable health care options are nationally accessible. We have taken the disappointment and cost out of being insured, while assuring your health is "protected" when you need it.

TELEMEDICINE provides you and your family affordable and convenient access to primary care services online, 24/7. Instead of taking time out of your day to travel to an urgent care center, connect with a US-licensed doctor via computer, phone or mobile device for diagnosis and personalized treatment plan.

CARE GUIDE is a patient advocacy group that helps ensure you never overpay for healthcare again. Using proprietary tools like Hospital Bill Eraser, Pricing Portal, Money Map and others you can reduce or eliminate medical bills and Prescription costs, and apply for financial assistance.

WELLNESS IN HEALTH is an online learning and coaching system. Optimize your health and prevent disease through classes and webinars. Then book time with health and fitness coaches for one on one and group support.

WELLCARDRX provides instant savings of up to 50% on prescription drugs. The best prices at 59,000 pharmacies nationwide. Exclusive mail order services. Privacy you can trust, with HIPAA-compliant services every step of the way.

SUPPORTLINC is a confidential resource that helps you deal with life's challenges and demands that come with balancing home and work. The program provides professional counseling and expert referrals for a wide array of personal and work-related concerns.

INHealth
PLANS
